Galen Wayne T. Crisostomo

Community Worker

Dannuell P. Rangamar

OUR PROGRESS

PRIORITIES:

- Continue to maintain services to the people of Rota such as providing support to community programs, public school programs, continue support for our Man Amko' and the support of small businesses and cultural artists on the island.
- Continue to promote youth and cultural productivity to shape our children to be productive citizens of our community.
- Continue to support Mayor Hocog with STY Sinlaku and STY Bavi Relief and recovery efforts
- To highlight additional staff to help reduce the unemployment rate on Rota. This will in turn provide support to their families and help stir our local economy.

CHALLENGES:

- Lack of Personnel – The Municipal Council needs additional manpower to support our mission in providing support for our community.
- Lack of Equipment – The office requires additional vehicles and operational equipment to effectively carry out field projects and beautification activities. Many existing units are outdated, non-functional, or have been damaged due to wear and tear, harsh weather conditions, or natural causes. This shortage and deterioration of equipment hinder the office's ability to maintain project efficiency, meet timelines, and deliver consistent service quality to the community.
- Austerity Measures - While the measures aim to achieve fiscal stability, this poses ongoing challenges to efficiency, equity, and the government's ability to meet community needs effectively.
- Super Typhoon Sinlaku & Bavi - Due to damages caused by back to back super typhoons, RMC office was without electricity & water, therefore office operations were put on hold until the building was provided with FEMA generators to support daily operations.
